

# Approved Residential Plant List For Siesta Foothills

The Siesta Foothills subdivision is part of a unique portion of land which is a pristine native Sonoran Desert Theme. All plant materials and species used in the common areas of the development are native or water-efficient plants which celebrate the color and texture of the existing adjacent native landscaping while enhancing the aesthetics of the overall subdivision. The approved residential plant species list below encompasses a wide range of native and water-efficient plants which compliment and continue the cohesive landscape theme throughout the Siesta Foothills community.
